M.D.'s Comments

Commenting on the results, Mr. Sandeep Kumar Reddy, Managing Director, Gayatri Projects Limited said
“ FY15 has been an eventful year for the Company, wherein we successfully commenced commercial operations for one of our power projects besides winning multiple orders.

First unit of TPCIL project, in partnership with SembCorp commenced commercial operation during the quarter following its successful synchronization with the grid earlier during the year. The project located near krishnapatnam port will help address the demand supply mismatch of power in Andhra Pradesh and Telangana states. We are now diligently working towards achieving commercial operations for the plants second unit and are hopeful of attaining its by the end of the year.

Road business continues to remain strong with existing operational projects generating positive cash-flows. Performance of projects are expected to improve even further following the reversal in interest rate cycle and pick up in traffic volumes. Further, the multiple order wins in the segment during the year will also help in strengthening the segment's overall performance.

Looking ahead, our improved project mix, robust and diversified order book, and gradual improvement in some of our slow moving projects we are hopeful of delivering consistent and improved performance over the coming years.”
