## **Gayatri Projects Ltd – Sembcorp launches 2640 MW Power Complex**

- *Complex Houses Two 1320 MW Supercritical coal – fired Thermal Plants*

**Hyderabad, February 26<sup>th</sup> 2016,**

Gayatri Energy Ventures Pvt. Ltd., a wholly owned subsidiary of Gayatri Projects Ltd, along with its JV partner Sembcorp Industries, is launching its 2,640 MW Sembcorp Gayatri Power Complex in an inaugural ceremony tomorrow – 27<sup>th</sup> February, 2016, as per the advertisement attached.

Built, at a total project cost of US\$3 billion (RS 20,000 crore), the power complex is the largest foreign direct investment-driven project on a single site in the thermal energy sector in India to date. The complex houses two 1,320-megawatt supercritical coal-fired power plants - Thermal Powertech Corporation India (TPCIL), first power plant successfully completed and commenced full commercial operation in September 2015, while NCC Power Projects, second plant is expected to be fully operational in 2016.

TPCIL has secured more than 85 percent of its net total generating capacity under long-term power purchase agreements – 570 MW agreement with Telangana Power Distribution Companies and 500 MW agreement with Andhra Pradesh & Telangana Power Distribution Companies. The power complex leverages technology and innovation from start to end. A covered conveyor system transports coal seamlessly from coast to power complex, minimising carbon footprint and air pollution. Supercritical technology is also used, enabling higher efficiency and lower emissions compared to conventional coal-fired power plants.

***Commenting on this event, Mr. T.V. Sandeep Kumar Reddy, Managing Director, Gayatri Projects limited said "The launch of the complex is a reflection of Gayatri Projects' commitment to supply essential power to India. This power complex will help to address the power demand in India and support the country's economic development. Power remains a key thrust segment for Gayatri Projects Ltd.. We understand its importance towards India's long term economic growth and our continued focus will be on strengthening its presence in this space."***

-----Ends-----

## **About Gayatri Projects**

---

Gayatri Projects is a Hyderabad-based infrastructure and construction company with a presence across the segment, and a special focus on road and irrigation projects. The Gayatri has been executing construction orders across the country over last 50 years and owns almost all its equipment, enabling optimal cost control.

Its two subsidiaries, Gayatri Infra Ventures Ltd (GIVL) and Gayatri Energy Ventures Private Ltd (GEVPL), are the Asset Development arms of the Company. GIVL the road development arm and associate Gayatri entities are working on 6 operating and 1 under-construction projects, adding up to gross capital employed in excess of Rs. 5000 cr. GEVPL was set up to undertake power generation projects. It is in the final stages of developing a 2640 MW power project in partnership with SembCorp Industries.

## **About Sembcorp Industries**

---

Incorporated in 1998, Sembcorp Industries is a leading energy, water and marine group operating across five continents worldwide. With facilities of over 10,600 MW of gross power capacity and close to nine million cubic metres of water per day in operation and under development, Sembcorp is a trusted provider of essential energy and water solutions to both industrial and municipal customers. It is also a world leader in marine and offshore engineering, as well as an established brand name in urban development.

In India, Sembcorp has over 3,500 megawatts of power capacity: 2,640 MW in thermal energy and over 900 MW in renewable energy. It owns and operates two supercritical thermal power plants: Thermal Powertech Corporation India (TPCIL) and NCC Power Projects (NCCPP), each having a capacity of 1,320 MW, in Andhra Pradesh. Sembcorp's renewable energy portfolio in India, operated through Sembcorp Green Infra, consists of more than 900 megawatts of wind power and solar power assets in six states across the southern, western and central regions of India.

The Group has total world-wide assets of over US\$14 billion and employs over 7,000 employees.
